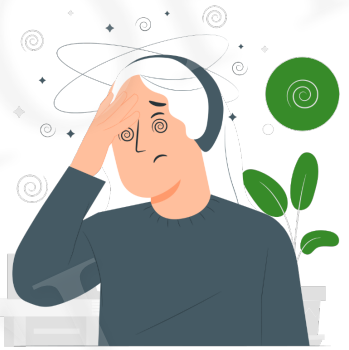
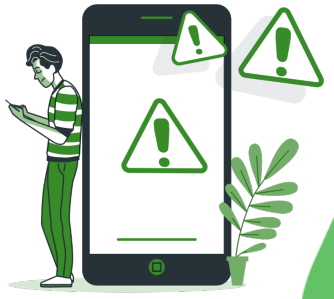
Real-time health monitoring



Automatic detection of falls or health changes.



Automatic message to the family & relatives mobile app

Alert and quick response from health workers or family

SOLUFLANTROPI TEKNOLOGI

Benefit

LifeTrace

Not Using LifeTrace

1. Limited Health Monitoring:
Health monitoring is limited and can reduce the ability to detect health changes early.

2. Delayed Emergency Response:
Reliance on human assistance or traditional devices can delay response to emergency situations

3. Dependency on traditional Devices:
Without smartwatches, enderly may rely on traditional devices or human assistance to monitor their health

Using LifeTrace

1. Continuous Health Monitoring:
Provides real-time health monitoring, including heart rate, enabling early detection of health problems.

2. Fall Detection and Fast response:
Automatically detects falls and provides rapid response, providing additional safety for enderly

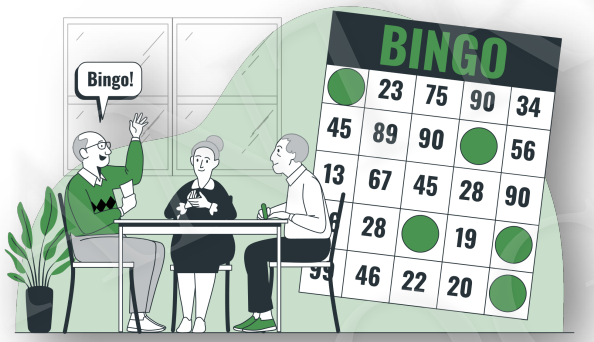
3. Ease of Use:
The elderly friendly design and simple user interface make the smartwatch easy for enderly to use.

Potential Industry

LifeTrace

Nursing Home

Hajj Umrah pilgrims



Health Facility

House Health Care
